

Safety Support Sheet: Same or Different

Student Instructions: In the left box draw a picture using only one color crayon. In the box on the right draw the same picture using all different color crayons. When you are done, circle the one you like best. Do you like everything the same or different? Tell your teacher and class why.

A large, empty rectangular box with a dashed black border, intended for drawing a picture using only one color crayon.A large, empty rectangular box with a dashed black border, intended for drawing the same picture as the first box but using all different color crayons.
